

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

REVIEWS		731

The Journal of Geology is published semi-quarterly. ¶The subscription price is \$3.00 per year; the price of single copies is 50 cents. ¶Postage is prepaid by the publishers on all orders from the United States, Mexico, Cuba, Porto Rico, Panama Canal Zone, Republic of Panama, Hawaiian Islands, Philippine Islands, Guam, Tutuila (Samoa), Shanghai. ¶Postage is charged extra as follows: For Canada, 30 cents on annual subscriptions (total \$3.30), on single copies, 4 cents (total 54 cents); for all other countries in the Postal Union, 53 cents on annual subscriptions (total \$3.53), on single copies, 11 cents (total 61 cents). ¶Remittances should be made payable to The University of Chicago Press and should be in Chicago or New York exchange, postal or express money order. If local check is used, 10 cents should be added for collection.

William Wesley & Son, 28 Essex Street, Strand, London, are recognized as European agents and are authorized to quote the following prices: Yearly subscriptions, including postage, 14 s. 6 d. each; single copies, including postage, 2 s. 6 d. each.

Claims for missing numbers should be made within the month following the regular month of publication. The publishers expect to supply missing numbers free only when they have been lost in transit.

Business correspondence should be addressed to The University of Chicago Press, Chicago, Ill.

Communications for the editors should be addressed to them at The University of Chicago, Chicago, Ill.

Contributors are requested to write scientific and proper names with particular care and in citations to follow the form shown in the pages of the Journal.

Separates, if desired, must be ordered in advance of publication. Separates of leading articles will be printed as ordered, of which 50 (without covers) will be furnished *gratis*, the actual cost of the remainder (and covers, if desired) to be paid for by the author. The table below shows the *approximate* cost of separates consisting of plain text or text with line engravings. The actual cost may vary from the figures given, and will depend upon the amount of work in re-making the pages into forms, press work, paper, binding, etc. Separates containing half-tones may be expected to cost somewhat more than the rates given, the increase depending upon the number of cuts and the amount of work required upon them.

Number of copies	50	100	150	200
Letter-press, for 4 pages or less	\$1.30	\$1.60	\$1.80	\$2.00
Letter-press, for 8 pages or less	1.80	2.20	2.50	2.80

Single plates (1 double=2 single)	.80	1.10	1.35	1.60
Covers, with title (paper like Journal cover) .	1.20	1.69	2.00	2.40

Walker Prizes in Natural History

BY the provisions of the will of the late Dr. William Johnson Walker two prizes are annually offered by the **Boston Society of Natural History** for the best memoirs written in the English language, on subjects proposed by a committee appointed by the Council.

For the best memoir presented a prize of sixty dollars may be awarded; if, however, the memoir be one of marked merit, the amount may be increased to one hundred dollars, at the discretion of the Committee.

For the next best memoir a prize not exceeding fifty dollars may be awarded.

Prizes will not be awarded unless the memoirs presented are of adequate merit.

The competition for these prizes is not restricted, but is open to all.

Attention is especially called to the following points:—

1. In all cases the memoirs are to be based on a considerable body of original and unpublished work, accompanied by a general review of the literature of the subject.

2. Anything in the memoir which shall furnish proof of the identity of the author shall be considered as debarring the essay from competition.

3. Preference will be given to memoirs showing intrinsic evidence of being based upon researches made directly in competition for the prizes.

4. Each memoir must be accompanied by a sealed envelope inclosing the author's name and superscribed with a motto corresponding to one borne by the manuscript, and must be in the hands of the Secretary on or before April 1 of the year for which the prize is offered.

5. The Society assumes no responsibility for publication of manuscripts submitted.

SUBJECTS FOR 1908

1. An experimental study of inheritance in animals or plants.
2. A comparative study of the effects of close-breeding and cross-breeding in animals or plants.
3. A study of animal reactions in relation to habit formation.
4. A physiological study of one (or several) species of plants with respect to leaf variation.
5. Fertilization and related phenomena in a phenogamous plant.
6. What proportion of a plant's seasonal growth is represented in the winter bud?
7. A physiographic study of the forms and processes discoverable along a varied shore line.
8. A problem in structural geology.
9. A study of one or more geological horizons with a view to determining the different conditions obtaining at one time over a large area, as recorded by sediments and fossils.

SUBJECTS FOR 1909

1. A geographic study of a district of varied features, presented as involving the natural relations of inorganic and organic elements.
2. A petrographic study of a district of crystalline rocks.
3. A paragenetic study of a mineral locality.
4. The conditions controlling sexual reproduction in plants.
5. Studies in the life history of a thallophyte, with especial reference to sporogenesis.
6. Contribution to our knowledge of response in plants.
7. The factors governing orientation in animal responses.
8. The relation between primary and secondary sex characters in animals.
9. The activities of the animal body in relation to internal secretions.

QUANTITATIVE CLASSIFICATION OF IGNEOUS ROCKS

Based on chemical and mineral characters, with a systematic nomenclature.

By **WHITMAN CROSS,**
JOSEPH P. IDDINGS,
LOUIS V. PIRSSON and
HENRY S. WASHINGTON;

with an introductory review of the "*Development of Systematic Petrography in the Nineteenth Century*," by **WHITMAN CROSS.**

CONTAINS a critical review of various systems of petrographic classification that have appeared in the nineteenth century which forms a historical introduction to the new system of quantitative classification and the nomenclature proposed by MESSRS. CROSS, IDDINGS, PIRSSON, and WASHINGTON. The authors also propose a simplified classification and nomenclature of igneous rocks for use in the field and for those who are not petrographers. This is based wholly on megascopic rock characters, and is virtually a restoration of the earliest system in vogue with the founders of the science. Methods of calculating mineral composition from the chemical composition of rocks, and the reverse, with tables to aid the operation, are set forth at length. There is also a glossary of new terms employed by the authors.

286 pp., 8vo, cloth, *net*, \$1.75; postpaid, \$1.91.

The Rôle of Diffusion and Osmotic Pressure in Plants

By BURTON EDWARD LIVINGSTON

This book would serve as a manual for both beginning and advanced students, as the first part is a thorough and concise treatise on osmotic phenomena in organic life; while the second part is a more discursive and equally thorough discussion of the present status of knowledge in regard to the occurrence of these phenomena, together with a bibliography on the subject.
